

Marxian Class Theory

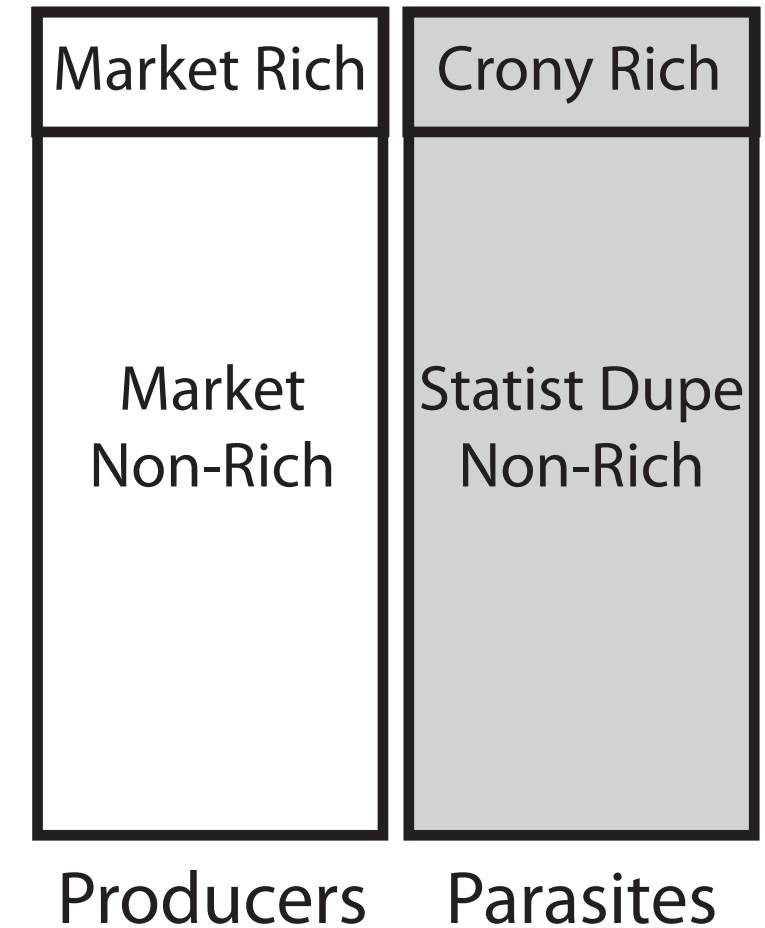

- **Fails** to distinguish between productive rich and political crony rich.
- **Fails** to distinguish between productive poor and parasitical poor.
- **Assumes** identity of interests within classes, and opposition of interests outside classes.
- **Ignores** competing interests within classes, and cooperative interests between classes.

Libertarian Class Theory

- Shows those who produce using voluntary cooperation - **the economic means**.
- Shows who plunders from society instead of producing - **the political means**.

Who Benefits? Liberty Statism

- **Market entrepreneurs and capitalists and free workers are in the productive class.**
- **Political entrepreneurs and capitalists and welfare-sucking workers and voters are in the parasite class.**
